South Africa

To whom it may concern

With employing some new starters at EOH, with little to no work experience one of the most vital tools I believe great teams need is excellent communication. From verbal to non verbal communication I believe Richard thought the team a lot. I still see them practicing and calling each other out where needed. Richard taught the team how to think about what they communicating, and more importantly how to deal with feedback.

We will certainly be using Richard again.
